A Warm Minimalist Residence — Dubai

Prepared by Green Earth Design

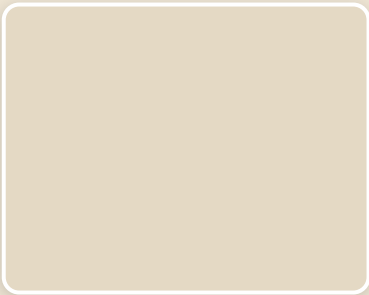

1 Bedroom FLAT
Jumeirah Lake Towers

DESIGN CONCEPT

Warm Minimalist Living

This living space embraces a warm minimalist aesthetic that balances understated luxury with everyday comfort. Soft neutral tones — cream upholstery, beige travertine flooring, and warm oak accents — create a calm, cohesive palette that lets the panoramic Dubai skyline view take center stage through the floor-to-ceiling windows. Layered lighting plays a defining role in the concept: recessed cove lighting traces the ceiling perimeter and wall niches, a statement bronze chandelier anchors the seating area, and integrated LED strips on the media wall and display shelving add warmth and depth after dark. Textural contrast — the ribbed timber wall paneling, matte stone coffee table, plush area rug, and dark granite kitchen counter — keeps the space visually rich without disrupting its quiet, refined tone, while curated greenery and art soften the interior and reinforce a sense of organic elegance throughout.

Travertine Beige

Living Room

Welcome Home

01 — KITCHEN

Open Kitchen

Almost square shape kitchen in matte cream and warm oak cabinetry, anchored by a full-height Samsung fridge and Bosch built-in oven and microwave column. A backlit open shelf breaks up the run of upper cabinets, and continuous under-cabinet and toe-kick lighting keeps the space glowing after dark.

Matte cream + warm oak cabinetry

Integrated Bosch oven, microwave & dishwasher

Backlit open display shelving

Marble L shape counter top

02 — GUEST BATHROOM

Powder Room

A backlit ellipse mirror and a stone vessel basin set the tone for the guest bathroom, paired with brushed bronze fittings and a fluted tile accent behind the WC. Warm cove lighting along the ceiling and floor lines gives the compact room a spa-like glow.

Backlit ellipse mirror

Stone vessel basin

Brushed bronze fittings

Fluted feature tile at WC wall

03 — MASTER BEDROOM

Mater Bedroom with Skyline View

The bedroom uses a warm, natural material palette: oak wood panelling on the headboard wall and shelving unit, soft beige upholstery on the bed, plush wool-blend area rugs, and matte porcelain tile flooring. Brushed brass and ceramic accents appear in the table lamps and vases, while sheer linen curtains layered with heavier drapes soften the natural light — together creating a cohesive, textural, and calming interior finish.

Upholstered headboard + ribbed panel wall

Floating oak media console

Sheer curtains with full skyline outlook

Continuous ceiling cove lighting & Bookshelves

04 — DRESSING ROOM

Built-in wardrobe

Walnut open shelving with cream theme & amber accent lighting

Dedicated bag & accessory display

Integrated soft-close drawers

Master En-Suite & Walk-In Shower

A frameless glass walk-in shower sits beside a floating stone vanity with a matching vessel basin, unified by the same brushed bronze fixtures and backlit round mirror as the powder room. A recessed niche with cove lighting adds a quiet, hotel-suite feel to the everyday routine.

Frameless glass walk-in shower

Rain shower + handheld brushed-bronze set

Backlit recessed shower niche

Floating stone vanity
